

Information Technology Report

Information Technology
By AJ Hiton

February 2, 2012

Effective on February 2, 2012 Cindy Hiton, auxiliary 2nd Vice President became a member of the IT committee. Cindy is very instrumental in her initiative and creativity in website design. She is helping me upgrade the tree one website. She has a lot of experience and lots of ideas that we can improve our website.

On February 2, 2012, IT committee conducted a meeting at 0800. Present for the meeting are AJ Hiton and CN Hiton.

Topic for discussion is to continue upgrading the website. There is no dateline to completely upgrade the web because there are changes on a daily basis and there is no end to it. An issue that can improve the image of our website are items that can be inserted such as committee reports, Members may click on lets say, award committee and when it pops up, there is nothing there.

So far, the following committees have submitted reports:

Budget
Chaplain
Entertainment
Information Technology
Public Relations

All others please send me your reports; both through email or just a carbon copy and between Cindy and I we will place it on the web. I have a holding box in the tree office that committees may place a hard copy of their reports and we can then place them on the web.

We understand that the Standing rules and Bylaws committee have a lot of changes to make and once those changes are made and approved, it will be posted. Please be aware that SR-22 is missing as part of the SRs and Bylaws that is posted on the web.

For those of you that have access to the web, there is a caption called "CONTACT US". You can click on that and send us a message or ideas that we can use, also on the bottom of the website is a message to send me anything you want posted.

So far, eight members had signed up for the computer class, which started on Wednesday, February 8, 2012. This class is aimed at getting members

knowledgeable in knowing how to log in to the system, create files, make folders, and navigate the Internet.

Members are still having problems accessing the face book, which had been set up by Gary Edwards. An important issue is that before you can access face book, you have to be a member by registering. For my own personal reasons, I choose not to be in face book, but that's me. Some people love it and that's their personal choice.

The meeting adjourn at 0930 am.

Signed:

AJ Hiton
